# Chapter 1

## Introduction

Here is the introduction. The next chapter is chapter ??.  
a new paragraph

### 1.1 Examples

You can also have examples in your document such as in example ??.

#### **Example 1.1 (An Example of an Example)**

Here is an example with some math

$$0 = \exp(i\pi) + 1 . \tag{1.1}$$

You can adjust the colour and the line width in the `macros.tex` file.

### 1.2 How Does Sections, Subsections, and Subsections Look?

Well, like this

#### **1.2.1 This is a Subsection**

and this

#### **This is a Subsubsection**

and this.

**A Paragraph** You can also use paragraph titles which look like this.

**A Subparagraph** Moreover, you can also use subparagraph titles which look like this. They have a small indentation as opposed to the paragraph titles.

Is it possible to add a subsubparagraph?

I think that a summary of this exciting chapter should be added.

## Chapter 2

## Chapter 2 name

Here is chapter 2. If you want to learn more about  $\text{\LaTeX}2_{\epsilon}$ , have a look at [Madsen2010], [Oetiker2010] and [Mittelbach2005].

I think this word is misspelled

## Chapter 3

# Conclusion

In case you have questions, comments, suggestions or have found a bug, please do not hesitate to contact me. You can find my contact details below.
